CAMP PROJECTS

1

»»» WHAT WE ARE FUNRAISING FOR!

In terms of maintenance, our campfire benches still need to be replaced. They are crumbling and cracking and are overall, quite dangerous. Our ranges could also use some fixing up, the benches are old and wobbly, and the riflery range could use a better target set up.

Now, there's also the matter of building repairs and renovations. Last spring, with the help of our RABC community, we were able to renovate the men's bathrooms downstairs. Next up, we also need to renovate the women's bathroom. We are so thankful for those who came out and lent us a helping hand in the renovations, and also those who supported us financially. We couldn't have done it without you!

On top of the bathroom renovations, we are still looking into repairing the retaining walls and finding a permanent solution for our water system issues. We've been on a boil water advisory since reopening camp after the shutdown, and paying for water bottles is not very efficient at all! We are unsure of what the total costs will be at this point.

We are also hoping to start replacing our cabin roofs this spring. We hope to at least get one of them replaced before camp begins. If we are able to find enough volunteers for labor, we are confident that the cost will only be around \$3,500 each. This is very achievable! Thank you for your continual prayer and support on these matters.

**FUNDRAISING
GOAL:**

\$18,000

WHAT'S NEXT!?

1

>>> SUMMER 2026

The theme for next summer is Mission Impossible 2.0! With the theme verse being Mark 10:27, "Jesus looked at them and said, "With man it is impossible, but not with God. For all things are possible with God."

As many of you might remember, the Mission Possible theme was done back in 2007 with the theme verse John 3:16. I got to attend camp that year as my mother (Sprite) was the director, and it was so much fun! Now that it's been 19 years, the campers who remember that theme are all grown up and are even sending their own kids to attend camp now. So, I am excited to bring this theme back for our current generation to enjoy. I am hoping to also bring back the match box cars craft and have the match box car races at the end of each week with their handmade cars. However, I will need someone who is able to build us a track for it! Please let me know if you or anyone you know can help with that.

Next summer, we are also changing up the schedule quite a lot! Please make sure to carefully read the dates, times, and day of the week in your emails regarding camper drop off and pick up. We plan to offer less camps next summer in the hopes that the

camps we do have will be much bigger and more enjoyable for the campers and hopefully, easier to staff. We will be running for the month of July and then having the camp open for rentals in August. If you know anyone searching for a good wedding venue, let them know that Rough Acres is available next summer! Camper registration and staff applications will be open mid-January 2026!
